ATTENDANCE MATTERS!

When do Absences become a problem?

CHRONIC ABSENTEEISM
18 or more days absent per year

WARNING SIGNS
10 to 17 days absent per year

SATISFACTORY
9 or fewer days absent per year
**Note: A full school year ~180 days

Please send your child with weather appropriate clothing including coats, hats, mitts, & boots

It is that time of year when the weather changes drastically from day to day and morning to afternoon.

Outdoor recess time helps our students with self-regulation and learning. Students who have the appropriate clothing for the weather and a change of clothes can stay warm and dry and maximize class time.

Dates of Significance

November 5-11

Treaties Recognition Week

Ontario has designated the first week of November as Treaties Recognition Week to promote education and was introduced to honour the importance of Treaties and to help Ontarians learn more about Treaty rights and Treaty relationships. Treaties Recognition Week provides an opportunity for educators to continue planning curriculum-linked learning activities about Treaties and will help build awareness and a greater understanding of why we acknowledge the land/territory we are on.

November 7th - Inuit Day

On International Inuit Day, we celebrate the cultural, history, and impact Inuit people have on Canada and around the world. Click here for a Storytelling Project: <https://www.itk.ca/taimannganit/>

November 8th - Indigenous Veterans Day

November 11th - Remembrance Day

November 16th - International Day of Tolerance & Louis Riel Day

November 19th-23rd

Bullying Awareness & Prevention Week

November 20th -

Transgender Day of Remembrance

November 23rd -

Holodomor Memorial Day

November is Albanian Heritage Month & Hindu Heritage Month

There are many procedures that we do in schools to keep the school, staff, and ultimately the students safe.

Every year we practice 6 Fire Drills (3 in the fall and 3 in the spring) and at least 2 Lockdown Drills (during instructional time and non-instructional times (such as lunch). We work with our Fire Department and with the Police Department through our Community Liaison officers to establish these routine safety procedures.

Staff prepare students ahead of time and debrief with students afterwards as there are always ways to improve.

So far this year we have had 3 Fire Drills and 1 lockdown practice during instructional time and 2 lockdown practices during non-instructional times. We have had good practices this year.

- *By treating every drill as a serious event we are more prepared for emergency situations*
- *Key rules : Stay calm, move quickly and quietly, remain alert for instructions*

Re: Transporting Large Equipment or Large Personal Effects on the School Bus

Durham Student Transportation Services (DSTS) provides transportation based on the school board approved Student Transportation Policy listed on our website at www.dsts.on.ca. Section 2.2 refers to Transporting Large Equipment or Large Personal Effects on the School Bus:

2.2 In the interest of safety, and keeping aisles clear in the bus for emergency evacuations only certain equipment is allowed on school vehicles, under the following conditions:

- a) Musical instruments must be housed in cases and of a size that can be stowed completely under a seat; Loose large objects on a seat or child's lap may become a projectile if there is a sudden stop or accident;
 - b) Ice skates or other sports equipment must be carried in a sports bag, and stowed completely under a seat.
- For the safety of all on the bus, parents are expected to provide transportation for their children when bulky or large items such as projects, skis, snowboards and large sports equipment must be taken to and from school.

This is necessary as DSTS is responsible to ensure that all material transported in a school bus does not interfere with the safety of the driver and passengers or the safe expedient evacuation of the vehicle.

Be sure to update your email address with the school office, as we'll be moving to a digital newsletter in 2020

Cell Phone Use in Schools

Student cell phones (other electronic devices) should be off and out of sight in their locker. The cell phones should not be on or in use **with the exception** of the following;

- 1) For educational purposes as directed by the educator in collaboration with administration
- 2) For specific health or medical purposes with documentation is on file for prevalent medical conditions
- 3) To support students with special education needs with documentation on file

If any infractions occur schools will use Bias-Aware Progressive Discipline to deal with the concerns.

As of September 2019, the Ministry of Education implemented the following expectations for cell phone (and other personal electronic device) use during instructional time:

The use of personal electronic devices during instructional time will only be permitted under the following circumstances:

- For educational purposes, as directed by the educator in collaboration with administration
- For health and medical purposes
- To support students with special education needs

Co-curricular programs, such as field trips and after-school events, are an extension of the classroom, and the expectations for the use of personal electronic devices apply.
